Always the best climate for

UNIQUE DESIGN AND FRESH AIR

for finest indoor air comfort with
Zehnder ComfoValve Luna supply
and extract air valves

LUNA!

The Zehnder ComfoValve Luna family cares for your comfort at home

The Zehnder ComfoValve Luna series provides an ideal solution for the perfect indoor air climate. Both valves impress with a perfectly matched slim and discreet design. Thanks to the incredibly quiet air flows, the valves meet the most stringent of requirements with regard to noise and performance while delivering maximum living comfort.

Benefits

for users

- +** **Unique design:** A timeless, slim and discreet design. Completely adjustable flow with a fixed cover height of 30 mm (1.2"), ensuring harmonious integration in any interior
- +** **High comfort:** the Zehnder ComfoValve Luna S and E supply and extract air valves deliver maximum living comfort through super silent air flows and highest performance
- +** **Perfect combination:** Ideal for combining both valves in open living/dining kitchens due to their perfectly coordinated appearance

Zehnder ComfoValve Luna E extract air valve removes stale air from bathrooms and kitchens

Unique design from one source

The unique timeless design from one source allows the ideal combination of both valves in open living/dining kitchens. With an unchanged installation height of 30 mm (1.2") despite changes to the air flow adjustment positions, the valves ensure a harmonious and discreet integration into any interior.

**Unique
harmonized
design**

**Perfect
combination**

**Super
silent**

for professionals

-  **Time saving commissioning:** thanks to the flow setting scale and graduated adjustment positions which allow precise and easy flow control as well as instant documentation of the valve position during commissioning
-  **Peace-of-mind:** locking the air flow setting prevents it being modified inadvertently during maintenance or renovations
-  **Customer satisfaction:** high level of customer satisfaction through carefully selected, high-quality materials which are UV-resistant, scratch-resistant, colorfast and easy to clean

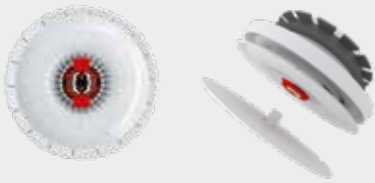

Zehnder ComfoValve Luna S supply air valve delivers fresh air to living and sleeping rooms

Technical information

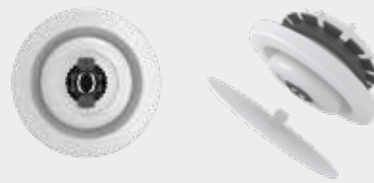

Zehnder ComfoValve Luna S supply air valve

- Optimised performance with air volumes up to 75m³/h (44 cfm)
- Ventilation without drafts (Coanda-Effect)
- 25 setting positions enable a wide range of air flow settings
- With the optional Zehnder Air Blocker the outflow angle can be reduced to 240°
- Locking mechanism of air flow settings prevents unintentional adjustment

Zehnder ComfoValve Luna E extract air valve

- Operating range for air volumes up to 75 m³/h (44 cfm)
- Precise and easy adjustment thanks to the 75 graduated adjustment positions
- Easy documentation of the valve position during commissioning
- Locking mechanism of air flow settings prevents unintentional adjustment
